

Official-count Model 1 estimates: time-trend and window checks

- 95% CI excludes 1
- 95% CI includes 1

Rows labelled 3, 6, or 8 df change the time-trend spline, not heatwave length.
The scale is five additional official days in the month, not consecutive days.

Health provenance: HA_APPROVED_AGGREGATE. Newey–West lag-6 95% intervals; days-in-month offset. Shaded row is Model 1 (4-df time-trend spline). Continuous-temperature fits for the same nine specifications are Supplementary Figure S6. Source: outputs/tables/cvd_trend_depletion_sensitivity.csv. No new health model.
